Something to ponder about...

“Entrepreneurship is about being enterprising whether it is starting a business or coming up with an innovation or one big idea at work or in the society. It is being empowered to take a calculated risk, fail, learn from it and come up with the next innovation, big idea or new method in continuous pursuit of success.

In the ultimate analysis, entrepreneurship is to keep trying and succeeding rather than sitting out and waiting for things to happen for you - things that are decided by others and not by you.

That's what I Create is all about.” - Harsh Bhargava, President, I Create Inc.

Contributors: Venkatesh, Tejaswini, Connie, Jervis, Madhukeshwar, Joseph, Ranju, Shashi and Harsh.
