Hello again!

A New I Create Centre- ICSD

A second I C centre was born on the auspicious day of 15th August 2012 in Gujarat. It's called I Create- Sneh Deep, since it's in partnership with a successful NGO-Sneh Deep. Joseph bhai Pius, whom most of you know well has over 20 years of experience in the development field and is well known for his dedication to creating grassroots entrepreneurs. He is the Director of the new Centre.

Josephbhai has not let grass grow under his feet and has already met with nine (9)SHG leaders and eight (8) other NGOs to form alliances and planned entrepreneurship creation programs. Josephbhai's goal is to create 50 entrepreneurs this year, leverage other NGOs in this work, and raise funds. With two centres in Gujarat, things can only move from strength to strength.

Congratulations, Josephbhai and keep up the great work.

The month of August has been deliberately kept slow on the program front to give us all a breather after the hectic activity of the last few months. Yet, The Cap Gemini- Give India project is going on full steam.
